

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph no. 0022 with the following amended paragraph:

A light-emitting device 1 includes a semiconductor chip 2, a reflector 3, a fluorescent body 4, and a lens 5. In this example, a light-emitting element 1a includes the semiconductor chip 2, the reflector 3, and the fluorescent body 4. Further, the light-emitting device 1 has an optical axis “OA_{led}” and the lens 5 has an optical axis “OA_{lens}”
